

## 5 Questions To Ask Your Doctor On Rounds

---

1. Does using a feeding tube prevent my baby from learning to feed from the breast or bottle?
2. If I am receiving treatment for medical problems or am ill, can I still provide my baby with my breast milk?
3. How will I know if I am producing enough milk and how can I increase my production?
4. If supplementation is necessary to help my baby grow, what are the best options and is it safe?
5. When can I start breastfeeding my baby?
